Introducing JellyUp AI

Revolutionizing video transcription with AI technology

Try Pitch

What makes us unique?

JellyUp

Upgrading transcription!

01

Features

Video upgrading using sentiment analysis, different transcribing and smart AI techniques, and a unique optimized workflow!

02

Buzzworthy + Credibility

We have a clean UI, are upgrading the market, and use dynamic AI techniques to upgrade users' videos!

We also have over 10 waitlisted users in the short time span, allowing for feedback and credibility!

03

Industry Revolutionizing

The Marketing Transcription market is worth over **$2 billion**, **growing** at almost **10% per year**!

The overall Transcription market is worth over **$24 billion**, and revolutionary marketing transcription apps like **JellyUp** will be **taking over** this market!

Challenges + Future/Facts

01

Challenges

- FFmpeg is supposed to work with video VFX but is deprecated.
- Workflow/Complicated System Design
- Working with such a thick tech stack!

02

Future Plans/Facts about the Project

- 12k+ lines of code in ~30 hours, that's 400 lines/hour!
- Unique approach, great workflow!
- One of the only projects to actually get deployed!
- Has basically all abilities of Jelly, plus some!
- Modern UI/UX
- Implications in the ever-growing Marketing Industry, Editing Industry, etc;
